

## CDAS – Chairman’s Monthly Letter – December 2018

### Fieldwork

November was a quiet month for Fieldwork with Coastal Monitoring the only event.

### Medmerry

The latest session at Medmerry West was invigorating! We saw a good deal of erosion, so that the Neolithic woodland was better exposed than usual, but the timber-lined well is now in the main breach channel and the fish traps have almost gone.

### Coastal Monitoring

Peter Murphy has prepared schedule for the period up until Christmas. As mentioned during November’s talk Peter will no longer be issuing this schedule directly, in future it will be published in the monthly Newsletter only.

Peter is in the process of preparing a schedule for the period after Christmas and I will include it in the next Newsletter.
