

## **CDAS – Chairman's Monthly Letter – July 2019**

### **Fieldwork**

After Priory Park we have had a bit of a lull in fieldwork before the Warblington dig starts in September.

We have continued our work on surveying and recording WW2 Auxiliary Hideouts and completed the survey of the one in Houghton Woods last week. This follows on from the Kingley Vale one surveyed in May. The ones at Stansted and Eartham Thicket will be scheduled in the coming months with Stansted the more urgent of the two.

### **Warblington**

The excavation is scheduled for 9<sup>th</sup> to 23<sup>rd</sup> September inclusive. Invitations for volunteers have been sent out and Trevor and Ann Davies will circulate draft schedules for diggers and finds processing in the coming weeks.

### **Coastal Monitoring**

No further Coastal Monitoring sessions are planned at the moment. Peter Murphy is reviewing the future schedule and when available it will be published in the Monthly Newsletter.

Medmerry remains our priority where we intend to arrange regular visits. Most other areas that we have visited in the past are not subject to rapid change and visits will be arranged when we become aware of a need.

### **Talks**

The Autumn schedule is filling up fast and will be published on the website during the summer.
